

**Key Concept Builder** 

**LESSON 1**

**Position and Motion**

**Key Concept** How can you describe the position of an object in two dimensions?

In addition to map directions, such as north/south, a position can be described in terms such as up/down, right/left, forward/backward, or ahead/behind.

**Directions:** Use the diagrams to describe the position of each item below.

1. New Orleans in relation to St. Louis \_\_\_\_\_
2. the chair in relation to the sofa \_\_\_\_\_
3. the dark window in relation to the ground \_\_\_\_\_  
\_\_\_\_\_
4. the car in relation to the truck \_\_\_\_\_
